

Etac Swift Mobile shower commode

A modern shower commode chair available in several models appreciated for its versatility.

Various models

Etac Swift Mobile is available in three versions. Swift Mobile, Swift Mobile 160 with increased weight capacity and Swift Mobile 24" which is equipped with 24" rear wheels. All have the same characteristic design and functions.

Back support with maximum comfort

The soft back support is adjustable using velcro straps. The material is carefully chosen so it does not stick to the body. It dries quickly and can easily be removed for cleaning. To prevent the back support from sliding, it is fixed at the top to the bow handle.

Choose seat height

The seat height can easily be set, without using tools. Most common is that the height is set to fit over the toilet. But also consider the user's transfer to and from the chair and the care giver's work situation.

The seat is detachable for easy cleaning.

Maintenance

Clean the product with a solvent-free cleaning agent (pH level 5-9), or with a 70% disinfectant solution. Can be decontaminated at max 85°C / 185°F if so required.

Features

Adjustable back support

The back support can be adjusted using velcro straps.

Ergonomic foot supports

The gently curved foot support ensures comfort and stability.

Easy to adjust the height

Swift Mobile can be adjusted to different fixed seat heights. It is easily done from both sides without using tools.

Foldable arm supports

The arm supports are foldable to facilitate side transfer. If needed they can be locked in a folded down position with a locking device (accessory).
